

Nomor : SC.3.03/3497/XI/09

3 November 2009

Lampiran : 1 halaman

Hal : Pemberitahuan

Kepada Yth.

Rektor Universitas / Kepala Sekolah / Kepala Instansi (terlampir)

Di tempat

Dengan hormat,

Berkaitan dengan kedatangan Richard Stallman, pendiri gerakan perangkat lunak bebas, proyek GNU, dan Yayasan Perangkat Lunak Bebas ke Indonesia, bersama ini SEAMOLEC akan menyelenggarakan seminar yang berjudul "One Day Seminar on Free Software" yang bertujuan untuk memajukan penggunaan *Free Software* di Indonesia,

Seminar akan dilaksanakan pada :

Hari, tanggal	: Rabu, 11 November 2009
Tempat pelaksanaan	: Gedung SEAMEO SEAMOLEC Lt. 1, Kompleks Universitas Terbuka Jl. Cabe Raya, Pondok Cabe, Pamulang
Materi seminar	: 1. Free Software in Ethics and in Practice 2. The GNU General Public License
Biaya seminar	: Rp. 100.000, 00 /orang (termasuk sertifikat, seminar kit, makan siang)

Diharapkan kesediaan Bapak/Ibu untuk mengirimkan maksimal 3 orang perwakilan untuk menghadiri seminar ini. Dikarenakan keterbatasan tempat untuk kegiatan ini, maka diharapkan untuk mengkonfirmasi keikutsertaan Bapak/Ibu terlebih dahulu kepada saudara Rafika Akhsani (0856 461 471 84 atau melalui email ke jarc@seamolec.org) paling lambat hari Selasa, 10 November 2009.

Demikian surat ini kami buat, atas perhatian dan kerjasama Bapak/Ibu, kami sampaikan terima kasih.

Direktur

Dr. Ir. Gatot Hari Priowirjanto

NIP. 130 675 814

BIOGRAPHY

Richard Stallman launched the development of the GNU operating system (see www.gnu.org) in 1984. GNU is free software: everyone has the freedom to copy it and redistribute it, as well as to make changes either large or small. The GNU/Linux system, basically the GNU operating system with Linux added, is used on tens of millions of computers today. Stallman has received the ACM Grace Hopper Award, a MacArthur Foundation fellowship, the Electronic Frontier Foundation's Pioneer award, and the the Takeda Award for Social/Economic Betterment, as well as several honorary doctorates.

ABSTRACT

Free Software in Ethics and in Practice

Richard Stallman will speak about the goals and philosophy of the Free Software Movement, and the status and history of the GNU operating system, which in combination with the kernel Linux is now used by tens of millions of users world-wide.

The GNU General Public License

Richard Stallman wrote the first GNU General Public License in 1989, and version 3 which was completed in 2007. He will discuss the philosophy of the GNU GPL, the changes made in version 3, and the reasons for those changes.
